

## Wild about Mammals and Reptiles among Us!

Experience (touch and hold as students would like, look only is fine, if not touch) some animals and animal pelts that a student may not have experienced before

Differences between mammals and reptiles ... and others?

Benefits of reptiles, understand the need to be careful

Benefits of mammals, understand the need to be careful

Importance of being able to identify snakes – non-venomous vs venomous

Understand importance to show respect for these and all animals by treating them kindly

Demonstrate that litter can harm both mammals and reptiles

Presented by Critters and More, On-The-Go!
